**ROWAN VINEYARD
PETALUMA GAP
SYRAH**

Rowan Vineyard occupies a hillside on the north edge of the Petaluma Gap AVA. Here, on a steep, south-facing, rolling hillside Syrah is harvested from a 1.5-acre block with the steepest slopes facing south and southwest in mid-October. Pinot Noir is taken from a one-acre block of the Vosne-Romance suitcase clone on gravelly silt loam, which has a higher percentage of limestone than usual for this area. Its cool climate is influenced by the gap in the mountains west of Petaluma that gives the AVA its name. Farming is conventional.
